- Jira
- CMS
- Sublime
- HTML
- CSS/SCSS
- Gulp

EXPERIENCE

Amazon | Sr. UX Designer | 2020 - Current

Lead design strategy and deliver technical designs across multiple Amazon Pharmacy customer experiences. I influence cross-functional/cross-organizational stakeholders and senior leadership and drive adoption of best practices to accelerate launches. I leverage business requirements, usability findings and market research to develop wireframes, high-fidelity concepts, information architecture diagrams, interaction specifications, and functional prototypes.

Stryker | Lead Interaction Designer (IxD) | 2016 - 2020

Led UX Design strategy and operations for HIPAA compliant products including: web, mobile, custom GUI, and AR applications. I worked in an agile development environment, collaborated with highly technical cross-functional teams, and was a main contributor toward creating Stryker's digital brand guidelines.

Freelance | UX/UI Design & Development | 2012 - 2020

Hired as a contractor to provide research, storyboards, architecture maps, design, development, and marketing services.

Garena | Web Team Lead | 2012 - 2016

Created the UI for mobile and PC based games and lead the design and development process for numerous websites.

FEATURED ACHIEVEMENTS

- Taught design classes at Maryland Institute College of Art (MICA).
- Stryker US & EU design patent for tracking events on a timeline.
- Placed first for a website design in a global marketing competition.
- Awarded employee of the year for working beyond expectations.

EDUCATION

Kalamazoo Valley Community College | 2008 - 2012

Earned an art and new media degree. Minored in web development.
